⇒ Maths

- This week we will brush up on a wide range of skills we have covered this year. To do this we will play through each level of Guardians: Defenders of Mathematica. It starts out easy so you get used to the format but quickly increases the level of challenge and targets all the areas of the curriculum which we would like to reinforce.

- The website will automatically save your progress so you can return every day and try to work your way through the levels. Each time you finish a stage take a screenshot or photo and post it on your pupil profile on Dojo or email it to your teacher.
