

Primary 5 – Agriculture Topic

Personal Project

Scotland has a great countryside for farming with rolling hills, lots of rainfall and lush green meadows, ideal for grazing animals. The word '**agriculture**' means cultivating the soil, producing crops, and/or raising livestock (animals).

For the personal project this week we would like you to choose an animal that is farmed in Scotland (sheep, pig, cow, highland cow etc.) and **create a fact file, PowerPoint presentation or even a video** all about this animal.

Your fact file can be displayed any way you like! It could be hand written, typed on a computer, displayed in a booklet or stuck onto A3 cardboard etc.

What your project is about is up to you. You might like to research one or all of the following ideas:

- the life cycle of your chosen animal,
- how to look after the animals on the farm,
- what foods they eat,
- different breeds,
- how many of these animals live in Scotland,
- fascinating facts,
- and so much more!
